15:50 Naughton Dunn Lecture: Ms Joanna Maggs

'Men in Orthopaedics'

Ms Joanna Maggs is a consultant orthopaedic surgeon at Torbay hospital specialising in trauma, lower limb arthroplasty and revision hip surgery. After completing speciality training on the Severn rotation, Joanna undertook eighteen months fellowship training in hip and knee arthroplasty at The Royal Devon and Exeter Hospital and twelve months fellowship training in major trauma at Southmead Hospital.

Joanna is a keen trainer and has an interest in culture and decision making in medical and surgical teams, and the importance of diversity.

She is the Culture and Diversity Chair for the British Hip Society, and in this role she has led the development of a national mentorship scheme as well as being involved in multiple initiatives to improve inclusivity within the British Hip Society and throughout the UK orthopaedic community.

Vindhya Prasad, Laasya Vasisht Dwarkanath, Sha Haleem, Petr Rehousek, Faizul Hassan

The Royal Orthopaedic Hospital, Birmingham

17:10 The perceptions of clinicians using low-intensity pulsed ultrasound (LIPUS) for orthopaedic pathology: A national qualitative study.

Mohammed Elmajee, Chathura Munasinghe, Ahmed A H Nasser, Satish Nagappa, Ansar Mahmood

University Hospitals Birmingham NHS Foundation Trust

17:20 Vote of Thanks and Presentation of Awards

About The Naughton Dunn Club

Naughton Dunn was born in Aberdeen in 1884 and was educated in the grammar school and university of that city, graduating in medicine in 1909.

His interest in orthopaedic surgery began with his appointment as house surgeon to the late Sir Robert Jones at the Royal Southern Hospital, some years before the Great War.

At the end of 1917 Sir Robert Jones transferred Major Dunn to Birmingham as surgeon in charge of all military orthopaedic hospitals in the area. Following his training in orthopaedic surgery, he transferred to Birmingham, where he became associated with the Birmingham Cripples Union.

He was connected with many hospitals in the Midlands, both in an active and in an advisory capacity, and he held a very important post of lecturer in Orthopaedic Surgery at the University of Birmingham.

He played major part in amalgamating both the Birmingham Cripples' Union and the Woodlands with the Royal Orthopaedic and Spinal Hospital to become the first Royal Cripples' Hospital and now the Royal Orthopaedic Hospital.

Wider recognition of the value and originality of his work came to him through his efforts during and after the Great War. He was a founding member of the British Orthopaedic Association of which he was president in 1938/3

Current Naughton Dunn Club Committee

President: Mr Callum McBryde

Secretary: Mr C Edward Bache

Treasurer: Mr Charles Docker

Trainee Representatives: Ms Sophie Howles and Mr Govind Chauhan
